EDUCATION

FAST-NUCES

Bachelor of Science in Computer Science

Aug. 2022 – June 2026

EXPERIENCE

Frontend Developer Intern

June 2025 – Aug. 2025

BixoSoft

- Built responsive UI components using React.js and integrated backend REST APIs to enable dynamic data rendering
- Collaborated with the development team in an agile environment to deliver features on schedule

UX/UI Designer Intern

June 2024 – July 2024

ViralVibes

- Designed user-focused interfaces and interactive prototypes using Figma with emphasis on usability and aesthetics

PROJECTS

Hunar Bazaar (FYP)

- A skill-exchange platform connecting users to trade services; built full-stack with the MERN stack (MongoDB, Express.js, React, Node.js) with authentication, REST APIs, and a responsive React frontend

Night-Sight Enhancer

- Low-light image enhancement app using Computer Vision; integrated YOLO-based object detection through a multi-stage upload-to-output pipeline

Image Captioning Model

- Deep learning model that generates natural language descriptions for images using a CNN encoder and LSTM decoder architecture

Airplane Management System

- Relational database system to manage flights, bookings, and passengers; implemented complex SQL queries and stored procedures for reporting

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, Python

Frontend: React.js, HTML, CSS, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js

Database: MongoDB, SQL

Developer Tools: Git, GitHub, VS Code, Cursor, AWS, Figma, Canva
